

EXECUTIVE SUMMARY

Introduction

This is the third monthly Environmental Monitoring and Audit (EM&A) Report prepared by Cinotech Consultants Limited for the “Low Level Radioactive Waste Storage Facility at Siu A Chau” (the Project). This report documents the findings of Environmental Monitoring and Audit (EM&A) Works conducted in between 1st and 30th November 2003 inclusively.

No construction activity was undertaken in this reporting month. The detailed design of the Facility was under preparation. The site clearance and preparation works are anticipated to be commenced in December 2003.

Environmental Monitoring and Audit Works

As presented in the first monthly EM&A report, the Action and Limit Levels for water quality were established according to the requirements in the Environmental Monitoring and Audit Manual for this Project.

As no construction activity was carried out between 1st and 30th November 2003, no EM&A work was required for such period. Hence, no non-compliance (exceedance) of the Action/Limit Levels was reported.

The template of the non-compliance summary of the reporting month is tabulated in Table I.

Status of Waste Management

The Waste Management Plan (WMP) was accepted with conditions by EPD on 30th September 2003 and the Contractor resubmitted WMP (Rev. B) on 9th October 2003.

As construction works for the Project has not been commenced, there was no solid and liquid
